M.V London Rose

About M.V London Rose

M.V London Rose (Originally named M.S Passauer Wolf) was built in Regensburg, Germany. After many years cruising the Danube she was brought to the Port of London to join the Viscount Cruises fleet. She has spent the last fifteen years serving as one of London's most popular private hire vessels. Having been extensively refurbished throughout her time in London she now boasts expansive booth seating, a spacious dancefloor and a well-stocked bar.

The vessels interior is split between two decks with her lower saloon comfortably seating 72 guests and space for another 48 guests in the upper saloon. London Rose's dance floor is at the front of the lower saloon and is fitted with a state-of-the-art sound system and laser lighting to ensure the perfect party atmosphere for any occasion. The lower saloon is home to a fully licensed bar serving a wide range of beers, ciders, wines, spirits, soft drinks & snacks. The bar accepts cash and card & drinks can be taken anywhere on board the vessel. Toilet facilities are located at the back of the lower saloon.

The large upper deck and smaller aft deck are the perfect places to see the sights and provide excellent photo opportunities throughout your cruise.

The upper saloon is the perfect place for guests to sit back and relax while they take in the views of London's breath-taking scenery from a secluded area. The interior of the vessel is fully heated for the winter months and features large panoramic windows providing outstanding views of London's iconic skyline.
